Century Plant Blooming at the Joe Baber Home

The century plant above is in the back yard of Mr. and Mrs. Joe Baber, who live at 2010 5th Avenue. L. S. Baker set out the plant 25 years ago. Until two and a half months ago, when it started growing 5-6 inches in 24 hours, the plant was 2 1/2 to 3 feet tall. The last time Mr. Baber measured it the plant was 14 feet 4 inches tall. After two and a half months of growing and blooming, the century plant, which blooms only once in a life time, is fading. Mr. and Mrs. Baber have lived at the present address for three years.

Report Armory Contract Let to Amarillo Firm

According to military circles, Ramey & Mathis of Amarillo has been awarded the contract for construction of the armory in Canyon for Company F.

This firm was recently awarded the contract for building the armory at Borger and it is assumed that the two buildings are almost identical in size and structure.

A representative of this firm stated Monday that according to information received from Austin, that their bid was the lowest and that a contract would be approved for construction for the building. No information was given as to the amount of the bid, or when work would be started.

It is presumed that the present war situation will have no effect upon the start of construction, although nothing is assured either pro or con on the matter of the armory.

Candidates Have Two Invitations Political Rallies

In addition to the political rally in Canyon on Friday night of this week, candidates have two invitations for political rallies.

The Green Haven Home Demonstration Club of the north part of the county has invited the candidates to the home of Mrs. T. L. Shumate on the old Lamble dairy farm for a candidate rally at 7:30 o'clock on next Tuesday, July 18.

The second invitation is from the Jowell club for a candidate rally at the school house at 8 o'clock on the night of July 20.

Second Term of College To Open on Next Monday

The second term of the summer session of West Texas State will open next Monday.

A record attendance of practically 1200 has attended the first session. It is estimated that most of those registered for the first session will remain for the second period.

August 1st Dead Line Is Set on Hiway Property

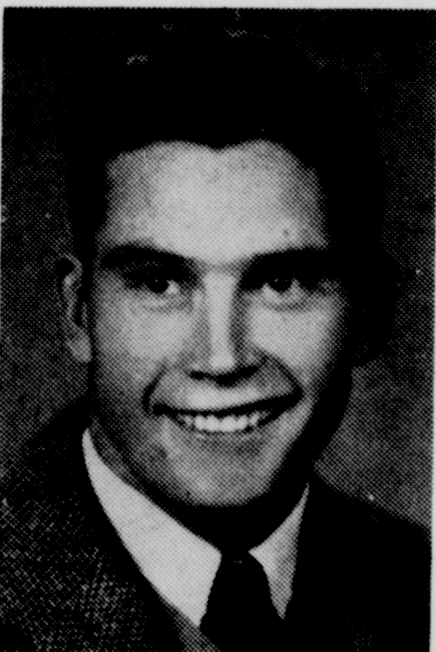

August first has been set by the City Commission as the deadline for settlement by property owners on the highway improvement through Canyon. Any person or corporation who has not reached an agreement with the city by that time will automatically be placed in the hands of the commission which will set the amount of damages against property affected by the widening of Highway 87.

The City Commission inspected all of the agreements which had been made by its representative, G. B. Heath, during the past few months. All but one of the agreements were approved and settlement will be made with the property owners as soon as the bond money is received.

The condemnation commission will meet next Monday to hear the plea of two local citizens and to consider the damage done to owners of unknown property which is located on the highway.

The city has reached agreements with all but five of the property owners along the highway, in addition to the unknown owners of lots. Guy Lott, district engineer, met with the City Commission Thursday. He stated that the State Highway Commission was ready to proceed with the highway widening as soon as all right-of-way has been cleared. Money was appropriated about three years ago for widening the highway through Canyon, and the State of Texas has been waiting upon Canyon to act during that period of time.

Hank Decker Is Fourth Candidate for Tax Assessor

HANK DECKER

Announcement is made in this issue of the News by Hank Decker as a candidate for the office of Tax Assessor and Collector of Randall County in a write-in campaign.

Mr. Decker is the fourth candidate to enter this race, which is creating much interest on the part of the voters in Randall county.

The office of Sheriff was not separated from that of Tax Assessor and Collector before closing time for candidates to file, hence the necessity of staging a write-in campaign by those seeking office.

Open House at the News Office Will Be Held August 5

On August first the Newsman will observe his 40th anniversary as publisher of The Canyon News.

Open House will be held at the news plant on Saturday, August 5, when all citizens of Randall county will be invited to come and look over the plant and the building.

The News is planning a special section of the paper to be devoted to the growth of the paper for that week, and historical stories and pictures are sought for this edition.

PROGRAM OF MUSIC

Thursday evening at 7:45 the Calvary Baptist Chapel will have a musical get-together. Favorite songs of everyone present will be sung. In addition, special numbers will be presented. A brief devotional will close the meeting. Everyone is invited.

Rev. Tom L. Watson is the minister.

MARRIAGE LICENSE

Robert Lee Turner and Margaret Fern Gable, July 4th.

W. B. Campbell Is Write-in Candidate Assessor-Collector

W. B. CAMPBELL

The News is authorized to announce the candidacy of W. B. Campbell for the office of Tax Assessor and Collector of Randall county.

"I am asking my friends to write at the bottom of their ballots 'For Tax Assessor and Collector, W. B. Campbell'."

"A division of this office from that of Sheriff is made mandatory by the Supreme Court of Texas in a decision rendered from Lubbock County when that county reached the 10,000 mark in population."

"I am qualified for this office, having been deputy in the office for nine years. I have resigned my position as deputy, and will devote all of my time to the campaign. If I am elected to the office, you will have no difficulties or delays in looking after your assessments and collections since I am qualified to look after every phase of your tax problems."

"I hope that the citizens of Randall county will consider my experience and training for this office when they go to the polls. The only way to vote for me is to write my name on the ballots."

"I was born in Randall county 46 years ago; am married and the father of two sons of teen age. I shall greatly appreciate your support when you go to the polls."

"Don't forget to write the name of W. B. CAMPBELL FOR TAX ASSESSOR AND COLLECTOR on your ballots."

"I am ready to continue the work which I have been doing for nine years without interruption if you elect me to the office," concluded Mr. Campbell.

Thursday Is Last Day to File 2nd Expense Account

Candidates for public office must file their second expense account with the County Clerk by Thursday of this week.

While the law provides that candidates may be barred from the ballots who fail to file the expense accounts on time, no one in Texas has ever gone to the trouble to protest this neglect on the part of any candidate.

Stork Specials

A baby girl, Penny Lynn, was born to Mr. and Mrs. Meredith Warren on July 5.

Mr. and Mrs. R. E. Friemel have a baby girl born on July 5.

A baby boy was born to Mr. and Mrs. Elmer Bauer on July 9.

Mr. and Mrs. Hollis Ingram are the parents of a baby boy born on July 11.

Arriving in Canyon on July 3rd, Miss Joan McCullough is the new assistant home demonstration agent in training. She received her B. S. in vocational home economics from Mary Hardin Baylor in 1949 and taught last year in the Miami school system. For three months she will assist Miss Lou Ella Patterson in the home demonstration office. Miss McCullough's home is in Kilgore, and she is staying in the R. E. Gill home here. Her hobbies are drawing and handwork.

Members of the Canyon W. S. C. S. will entertain the W. S. C. S. of the Buchanan Street Methodist Church with a birthday party on Tuesday, July 18, at 3 o'clock in the Canyon Methodist Church.

Visitors in the K. E. Mickey home during the week were Mr. and Mrs. J. E. Mickey and daughters, Donna Lynn and Linda Ann, of Odessa and Mrs. Helen May of Plainview.

Free Show For Kids and Local Talent Exhibit

This week plans are being completed for a new activity as a part of the Community Recreation program. Beginning July 22, a free movie will be shown each Saturday morning at the Olympic Theater for all boys and girls. The time for the show will be 9:30.

As an additional feature of the Saturday morning program, Jack Walker, speech instructor at West Texas, will be master of ceremonies for a talent show put on by local young people. All boys and girls who are interested in or who like to perform are invited to participate in the program. Readings, musical numbers either instrumental or vocal, dancing, skits and impersonations will be used. Also special attractions from West Texas and other places will be presented from time to time. All those interested in appearing on these shows are asked to contact Vergie Haines to schedule a performance.

These free movies, which over a period of time will include a variety of types, are being sponsored by individual citizens interested in children's work.

Wieck, Westhoff Left For Visit in Former Home

Going by train to New York, Louis Wieck and brother-in-law, Conrad Westhoff, who have farms near Umbarger, will sail from New York on the ship Batory on July 11. Nine days later they will arrive in Copenhagen, Denmark; from there they will go to visit relatives in Germany. Their plans include a tour into France and Italy. On September 27 they will begin their voyage from Copenhagen. This is the first time for a visit with their relatives in twenty-two years.

Canyon To Play Hereford Sunday

Sunday, July 16, at 2:30 p. m. Canyon will meet Hereford in a baseball game at the diamond located on the Palo Duro Road outside the city limits. Hereford with a record of 9 games won and 1 lost is tied with Vega for the lead in the Central Plains League. Canyon with 7 wins and 2 losses stands third in the League.

Admission will be 50c for adults and 25c for children.

Children of Mrs. Mary Simon honored her 75th birthday with a picnic at Thompson Park in Amarillo Sunday. Those present were: Mr. and Mrs. Herrick Simon and Lucille, Mr. and Mrs. Frank Simon, Jimmy and Earl, Mr. and Mrs. E. C. McCormick, Mr. and Mrs. Carl Sullivan and children, Bill Thompson, and Pete and Lily Allen of Amarillo; Mr. and Mrs. John Broadus, Stanley and Billy Joe of Wildorado; Mr. and Mrs. Tony Simon and Dwight Dietz, Annie Simon and the honoree of Canyon.

Visitors with the Prichards of this city last week were Mr. and Mrs. Hatton Hickey and Miss Maurine Gwaltney of Hickman, Tennessee and Mr. and Mrs. Hickey's son, Leon, of Detroit. Mrs. Hickey is a niece of Houston, Ernest, Emmitt, and Reg Prichard and the granddaughter of T. J. Prichard.

Mr. and Mrs. Alvin Prater of Salt Lake City visited over the week-end with Mr. and Mrs. A. D. Prater and family.

Darleen and Betty Blassingame of Dallas are visiting in the home of their uncle and aunt, Mr. and Mrs. A. D. Prater.

Miss Peggy Jean Robinson has returned from Hutchinson, Kansas, where she spent a week with Mr. and Mrs. Lynn Scott.

Bill Money Is a Candidate Office of Tax Collector

BILL MONEY

The News is authorized to announce the candidacy of Bill Money of Canyon as a write-in candidate for Tax Assessor and Collector of Randall County. Mr. Money states:

"I am 38 years old and have been a resident of Randall County most of my life, living in Canyon and also in South Amarillo. I received my education in Canyon schools."

"I married a Canyon girl, the former Irma Hinkle. We have two children, a daughter, Billie Marie, a student at West Texas State College, and a son, Claude, a student of Canyon High School."

"My father was the late T. E. Money, a pioneer ranchman of Randall County."

"I have been employed as a law enforcement officer for the past fifteen years with the exception of two years served with the U. S. Navy in World War II."

"I am a member of the Baptist Church, Masonic Lodge, and the Veterans of Foreign Wars."

"I am acquainted with the tax problems of the county, and I feel that I am qualified to serve as Tax Assessor and Collector."

"Since the time is so short, and it will be impossible for me to see every voter personally, I solicit your vote and request that you write my name on the ballot for Tax Assessor and Collector of Randall County in the Democratic Primary, Saturday, July 22."

Saturday Night Ends Special on Savings Bonds

Saturday will be the final day for buying Government Savings Bonds in the Independence Drive.

According to a report of June 30, Randall county citizens had bought only 24.52% of the quota of \$78,000 which had been assigned to the county in this drive. The total sales were \$19,125.00.

L. W. Cole, cashier of the First National Bank, states that there has been a brisk sale of bonds during the past week, but even under this circumstance there is little chance for the quota for the county being met.

Deaf Smith county has a quota of only \$43,000, and the sales have amounted to only \$14,531.25 in that county. Every other county on the Plains was given a reduced quota, except Randall county, in this present drive. Moore county, with a quota of only \$12,000, is among the few counties of the Plains which has exceeded the quota which was set in Washington, but even then has sold only \$18,471 in Savings Bonds, or less than Randall County. All citizens of Randall county who have not bought bonds during the present sale are urged to do so.

Two Light Rains Fall in Canyon During the Week

Two rains fell in Canyon during the past week.

The first rain fell last Wednesday night which amounted to .55 of an inch; the second rain fell Tuesday night of this week which measured .20 of an inch.

Rain so far in Canyon this month has amounted to 2.37 inches; with a total of 9.16 inches for the year. This is a small amount of moisture in comparison with many parts of the county where there have been heavy downpours during the past month.

PMA Meeting Is Held This Week College Station

W. H. Upchurch is at College Station this week in a conference with P. M. A. representatives from the various districts of the State. Each year the State P. M. A. committee calls a conference to advise with local representatives regarding the conservation practices to be included in the Farm Program for the following year.

One county committeeman and one P. M. A. Administrative Officer are elected to represent each district in the State Conference. R. C. Buckles of Stratford, Chairman of the Sherman County Committee, was chosen along with Upchurch, to represent the Panhandle District this year.

The State Committee, with the help of the representatives from the various sections of the State, will make up an outline of conservation practices from which each county will select those to be employed within the county in the 1951 program.

50th Anniversary Will Be Observed With Open House

On Sunday, July 16, from 4:30 to 6:30, Mr. and Mrs. P. M. (Jack) Wilson will hold open house in their home at 1708 2nd Avenue in observance of their 50th wedding anniversary on July 18. Mr. and Mrs. Wilson were married in McDade, Texas, (Bastrop County) and moved to the plains in 1901. For 38 years they have made their home in Canyon. Mr. Wilson has worked with ranching all this life.

All of the children will be present to honor their father and mother on Sunday: Perry W. Wilson of North Dakota, Mrs. Burtron Kenison of Long Beach, California, Mrs. Allamae Clark of Canyon, Mrs. Oma Ford of Dallas, Mrs. Pauline Groves of Stinnett, John W. Wilson of Amarillo, and Warren H. Wilson of Dawn.

Mr. and Mrs. Wilson have six grandchildren and one great grandchild.

Friends are especially invited to call during the open house hours.

Hunsley Tired of Picking Up Whiskey Bottles, Beer Cans

Arch Hunsley says that he is tired of picking up gunny sacks filled with whiskey bottles and beer cans from his place north of Canyon.

He makes this proposition: That if the person who drinks Schenley Whiskey and beer in cans will notify him he will go by this man's home and pick up the empties and take them to the dump grounds. He figures that some resident of Canyon is fearful that his neighbors will see the amount of stuff he is drinking and carries the empties by the sackloads out to the Hunsley place.

Broken glass and tin cans are a menace to livestock as well as an interference to harvest machines.

Rotary and Lions To Play Benefit Fogging Machine

The Rotary and Lions Clubs will play a second game this season. The Lions took the first game from their competing service club.

Jack Haley was appointed by President James Russell Tuesday to complete arrangements for the return match.

This game will be played as a benefit for the purpose of buying a new fogging machine for Canyon.

Canyon was treated for insects twice last summer but the weather was so unfavorable that little good resulted. By having a fogging machine available when the weather is good, it is believed that great good will result from the treatment.

Methodists To Hold Services at Camp Grounds Sunday pm

The annual meeting of the local Methodist Church will be held Sunday evening at the Methodist Camp Grounds on the Ceta Canyon.

The congregation will leave the church at 4 o'clock and will have a basket supper in the dining room, followed by Vesper Services at the Chapel.

All members of the local church are invited to leave from the Methodist Church at 4 o'clock, states Rev. Herschel Thurston.

COUSIN DIED THURSDAY

T. G. Treadway died Thursday in an Amarillo hospital. He was a cousin of S. H. Jones of Canyon.

The body was taken to Odell Friday for the funeral, with interment in Tahoka.

Fred Standley of Utah visited in the parental Fred Standley home last week-end.

Largest Rally Of Candidates Slated Friday

All voters of Randall county are cordially invited to be at the bandstand at 8 o'clock Friday night of this week to hear and to see the local and district candidates.

The Canyon News has sponsored such a political rally for more than 25 years, and again presents the candidates who will entertain the voters.

Farlow Electric will have a loud speaker for the occasion, and its use will be free to the candidates.

There will be no charge to any of the candidates, and nothing will be for sale unless some local organization wishes to sponsor a cold drink sale to the crowd which will assemble.

Two years ago more than a thousand persons gathered to hear the candidates. We hope that fully that number will be on hand for this rally.

Please keep in mind the fact that the rally will be over by 9:30 o'clock and that cars are a disturbing element at any rally. Persons who wish to drive up to the bandstand and sit in comfort during the rally are most cordially invited. Unfortunately there are a few persons who like to drive down the street; stop for a few minutes to listen; start their cars and roar away, much to the discomfort of those who are there to hear the candidates.

J. W. Shook will give instructions regarding voting the new secret ballot which will be used for the first time in a primary election.

Clyde W. Warwick will preside and will introduce the candidates to the assembled voters.

You are cordially invited to be present and to give a big hand to all of the candidates—especially your favorites in the races.

The rally is being held a week before the primary election in order that all candidates may have a chance to talk to the voters in plenty of time before the vote is taken.

K. L. Pond Is Candidate Office Assessor, Collector

K. L. POND

The Canyon News is authorized to announce the candidacy of K. L. Pond for the office of Assessor and Collector of Randall County in a write-in campaign. His announcement stated:

"In offering for the office of Tax Assessor and Collector, I realize that I must rely upon my friends to take time in casting their votes to write my name at the bottom of the ballots: 'For Tax Assessor and Collector, K. L. Pond.'"

"I know that this is an inconvenient way to vote, but since I did not know that there would be a division of the office from that of Sheriff before filing time expired, there is no other way that I can get the word to my friends, urging that they go to the polls and this time and trouble."

"I have lived for 13 years in Randall and in Canyon for 3 years. I have been a farmer living north of Umbarger and still operate this farm. Since moving to Canyon I have engaged in the real estate business. This has made it possible for me to know real estate values in Randall county, and be of valuable assistance in handling tax matters for the tax payers of Randall county."

"I own my home in Canyon, having moved here to give my children the benefit of the schools. I took a business course in Amarillo and am thoroughly qualified to handle all of business problems of the office."

"I am anxious to serve all of the people of Randall county in this new office, and earnestly request that you write the name of K. L. Pond on your ballot as a candidate for Tax Assessor and Collector. I shall repay your trouble with good services in the office," stated Mr. Pond.

Mrs. Travis Shaw passed through Canyon Monday enroute from a five-week stay in Dallas to her summer camp in Ward, Colorado.

EDITORIAL COMMENTS

Write-in Campaign Starts in County for Tax Assessor

The Democratic Primary Election in Randall county on July 22 should attract the heaviest vote in the history of the county.

To be sure, we have more people living in the county than ever before. Unfortunately many of our citizens have not paid their poll tax and are therefore not privileged to be voters in the primary election. Regardless of what you may think of the poll tax and the necessity for payment of the poll tax, the only way you can cast a vote in Texas is to be armed with this receipt. It takes just that—nothing more and nothing less. Just \$1.75 invested in the cause of good government, and just so much more money to help the school kids of Texas.

What we started out to say is that the voters of Randall county are confronted with a most peculiar problem. What to do about the combined office of Sheriff, Tax Assessor and Collector. Not even the Attorney General of Texas has given a ruling as to what should be done about the situation although he has twice been requested for a ruling by the County Attorney.

It seems that the candidates were caught unaware by the fact that the census was announced during the last week of candidate filing. It had been taken for granted by candidates and their friends that the census would not be official until published in Washington early in 1951. Therefore, the census of 1950 would not affect the officials who were elected this year. The District Supervisor of Census stated emphatically to *The Canyon News* on Tuesday morning before the final filing date that this was only an unofficial report and that the official report would not be made until early in January, 1951. In this case all informants of *The News* have been wrong. The Texas Supreme Court had taken care of the situation about 20 years ago and not many of the lawyers knew about this ruling.

Two candidates have filed for the combined office of Sheriff, Tax Assessor and Collector. They filed in good faith, and did not realize that there might be some question as to the legality of continuing a combined office. County Attorney Hayden Weaver, sought a ruling, but the Attorney General's department said there were about 25 such requests for a legal opinion from counties affected, either by increased or declining population, but that it had not been possible to make a ruling on the population question.

A write-in campaign was started in Randall county. Due to complications and silence of the law on the question, the Democratic County Executive Committee made no provision for a division of the two offices of Sheriff from the office of Tax Assessor and Collector.

It looks like a court decision will be the only recourse if any candidate hopes to land his office following the primary.

Having followed court decisions and rulings from attorney generals for such a long while, and having noted the various opinions expressed in different opinions, we are through with predictions and suppositions as to what may happen.

All that we can suggest (with our fingers crossed) is that any person wanting to land either or both offices get busy with a write-in campaign and trust that the winner will be lucky in landing the office. We have no idea as to what method may be the best or the legal way to get the job done.

News Print Becomes Scarce As Consumption Shows Increase

Believe it or not, news print is becoming scarce, and will soon be on the rationed list unless there is a halt in its consumption.

That is just what might be expected.

Following the war there was an unprecedented use of news print. The big dailies became larger, with largest circulation in history. The weekly newspapers increased their pages in order to put out better newspapers. All of this required more print. However, the weekly newspapers are not consuming as much paper in proportion as the dailies which have gone hog wild in their efforts to print more and more junk which few people get around to read.

We hope that this is a temporary condition, but we are fearful that should World War III break out in Korea that we have seen nothing in the way of real rationing.

Candidate Rally Will Be Held in Canyon on Friday, July 14

Every voter in Randall county should attend the candidate rally in Canyon on the night of July 14. The candidates are being furnished a loud speaker, free of charge, and no expenses attached unless some enterprising group or organization wishes to sell cold drinks, or something like that.

The Canyon News has been sponsoring this kind of candidate rally for many years, and can assure the candidates that they will receive a most cordial welcome from the voters.

Be on hand Friday night, July 14, at 8 o'clock at the bandstand.

You will enjoy the meeting with the candidates. None of the candidates will have a long time to speak.

There are lots of people who take better care of their automobiles than they do of themselves; it's a pity they can't trade their bodies from time to time.

There is the suspicion that man lived in the U. S. something like 40,000 years ago and, no doubt, was afraid of the then-current trend towards socialism.

When you go swimming, you can save your life, in an emergency, by remembering that you do not have to come out of the water where you went in.

More than two-thirds of the national government's income is spent on war—past and present—and there seems little chance to escape this burden.

The Korean situation reveals very clearly how the President of the U. S. can put his country into war, without any declaration from Congress.

July 4th was celebrated by a lot of people who have no idea of what the American republic stood for in the times that tried men's souls.

We are for all that the U. S. has done for other countries but we wonder what they will think of us when the flow of dollars ceases.

It's Time to Make Up Your Mind About State Candidates

The Canyon News always carries a review of some of the state candidates who are little known to the voters, and makes recommendations for your support.

While we are not hot and bothered about politics this year, we have some ideas about the candidates whom we shall support. You are entitled to your opinions but here are our choices:

We are confident that Governor Allan Shivers will defeat all of his six opponents in the first primary. He has made no mistakes and is entitled to his first elective term as Governor.

There are twelve candidates for Lieutenant Governor, several of whom are good men. We will vote for Preston Smith of Lubbock, simply because he is our near neighbor and has been a good State Representative. There will be a run-off, owing to the large number of candidates.

We believe that Will Wilson of Dallas county is an able candidate for Associate Justice of the Supreme Court, and we shall vote for him. Likewise we shall vote for Robert W. Calvert of Hill County for place No. 2; and Meade Griffin of Hale County for place No. 3.

G. H. Nelson of Lubbock is our choice for the Court of Criminal Appeals.

We shall vote for Robert S. Calvert of Travis County for Comptroller; and Bascom Giles of Travis County for Land Commissioner.

We did not intend supporting J. E. McDonald as a candidate for re-election to the office of Commissioner of Agriculture, but have decided to stay with him because of his independence on national politics. We admire the man who refuses to wear a brass collar, and resent the efforts of any political party to force any American citizen to vote the ticket straight, regardless of the candidates which it puts up.

So far as this particular office of Commissioner of Agriculture is concerned, we have always believed that it should be abolished.

You know all of the district and county candidates and are perfectly capable of voting for the candidate of your choice.

The main thing about this election is: GO AND VOTE. THIS IS AMERICA, AND DEMOCRACY WILL SURVIVE ONLY AS YOU TAKE AN INTEREST IN AND PARTICIPATE IN OUR DEMOCRACY.

Sale of Savings Bonds Lags in County; Quota Is Too High

If you have not bought a Savings Bond for yourself or some member of your family, do so at once. This is the first time that Randall county has ever fallen short on a bond drive.

We are making no apologies for the lack of interest in buying bonds when we consider the fact that the quota for Randall county is entirely too high, and out of line with other neighboring counties. The fact that Randall county folks have been so generous in buying bonds in the past is no indication that they will continue to buy bonds out of proportion to their resources in the future.

We can all do a little investing in Savings Bonds, regardless of the number of bonds bought or the size of the bonds.

July is the final date on the present drive.

Loan Made by RFC to Build a Gambling Joint in Nevada

Our government, acting through Reconstruction Finance Corporation, made a loan of \$975,000 to build a gambling joint in Nevada. Gambling is legal in Nevada. You can skin the suckers to your heart's content.

It seems that RFC field men opposed the loan, but the higher ups in Washington made the loan. The money will probably be repaid, since Nevada draws the suckers from every state, and they are always fleeced out of their earnings. They may win for awhile, but eventually the lid is on and they lose their shirts.

No one has ever beat a gambler at his own game. The wise will not try, but there are more suckers than wise persons.

Newspaper Errors Are Comical as Well as Serious at Times

Tut! Tut! Tut We thought that Randall County was doing pretty well to have increased its population to 13,732. Here comes the United Press which seriously gives a population of 17,732.

Wonder who is giving us that additional 4,000 population? Even at that late figure, possibly the county's population will be questioned by some folks as being too small.

This reminds us that even the big UP makes errors. Who are we to say anything about typographical errors, when this good old religious weekly newspaper, *The Canyon News*, announced last week that the primary election would be on April 22, instead of July 22. Evidently few people caught the error, since so few have called our attention to it.

Getting ahead in life, according to modern go-getters is convincing other people that you are more than you know yourself to be.

For once, in Korea, the Communists were confronted by something more than a resolution of censure from the United Nations.

It's rather difficult to make a fortune without hard work although the records show that it has been done but not by us.

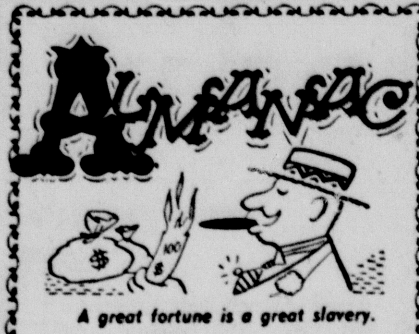

What has happened to the terrible disasters, predicted some years ago, if the United States did exactly what it did?

As July 4th approaches, may we request the super-patriots to let American ideals alone; they will take care of themselves.

A financial expert says that the financial condition of consumers is sound . . . which is to say that they have credit.

Our Own Advice: When in the company of a loud-talking gent, who insists upon talking, let him talk.

A wise man never tries to convince a foolish man; he lets the foolish man think that he has been convinced.

HERE IT IS

Everything is defined a little more
closely these days. Take for instance
fishing — according to the Ohio Di-
vision of wildlife, one must catch
at least one fish per hour to hon-
estly state that "Fishing is good."

NOT HUMOROUS

Will Rogers suggested a political
motto, Special privilege for all, equal
opportunity for none. He was
humorous about it, but some of our
pressure groups aren't.

ALWAYS

We regard it as short-sighted of
a political candidate to drop out of
the race because the campaign was
too strenuous, as there is always the
chance that he might be elected and
could rest up.

PROTECTION

"Temporarily, the sense of hear-
ing is considerably dulled by eating,"
asserts a physician. Kindly nature
does the best she can to protect us
from after-dinner speakers.

WHERE?

A week or so after an active two-
year-old and 200 pounds of sand are
placed together in a sandbox, no
one knows what becomes of the sand.

STRANGE RESEMBLANCE

The citizen who keeps asking, with
reference to things the Government
spends money for, who's going to
pay for all this? could find a partial
answer by looking in the mirror.

Engagement Is Announced

The engagement and approaching marriage of Miss Mary
Ann Bellah to Mr. Tom Keeling was announced at a tea given
in the home of her parents, Mr. and Mrs. Alfred Bellah. Mr.
Keeling is the son of Mr. and Mrs. Dale Keeling of Eunice,
New Mexico. The wedding will take place on July 23.

Government Has Greatest Lobby Supported Group

Lobbying—real and alleged—is
again in the headlines. As usual, it
is being used to buttress the political
drive to further control industry,
and to place barriers in the way of
free speech and the free press.

However, there is one phase of
lobbying which the politicians avoid
like the plague—and that is the
propaganda fed to the people by
government officials and bureaus.

In a fine editorial, the Wisconsin
State Journal said, "There are more
than 3500 Federal employees—who
cost taxpayers more than a million
dollars a month—engaged in selling
and lobbying for and stirring up
support for the programs wanted—
not by the people—but by depart-
ment heads and Mr. Truman."

"Congressman Vorys points out
one great danger in this tax-sup-
ported Federal lobby: 'Whether the
immediate purpose of government
propaganda is good or bad, the fact
remains that individual liberty and
free institutions cannot long survive
when the vast power of government
may be marshaled against the peo-
ple to perpetuate a given policy or a
particular group of officeholders.'"

The lobbyists who represent in-
dustry, agriculture, labor unions and
other institutions must register and

make periodic reports to the govern-
ment. But the lobbyists within the
government are free of all restraints.
They are an insidious and danger-
ous influence—and all of us are
forced to pay their salaries and ex-
penses.

If Congress is going to look into
lobbying, how about starting with
the department heads and the bu-
reaucratic trained seals?

THE COUPON COLLECTOR

Jones: Well, how are you getting
on in your new eight-room house?
Smith: Oh, not so badly. We fur-
nished one of the bedrooms by col-
lecting soap coupons.

Jones: Did you furnish the other
seven rooms?
Smith: We can't. They're full of
soap.

EXPERIENCE

Paul: I like the new type airplane
tires better than the old ones.
Pauline: Oh, Paul, have you got
a new car?

Paul: Oh, no. I don't have a car.
I'm a pedestrian.

MARCH OF THE SEASONS

The bathers and the boatmen fly.
The golfers and the blimps depart;
The fox hunt fills the news reel eye
And soon the ski jump views will
start.

Reform must come from within,
not from without. You cannot legis-
late for virtue.—James Cardinal
Gibbons.

HOME DEMONSTRATION CLUB MEETS IN OLSON HOME

The Zita Home Demonstration
Club met in the home of Mrs. Arth-
ur Olson on June 27th. Members
present answered roll call by giv-
ing a suggestion on "How to Avoid
Quarrels."

During the business session Mrs.

presented to the council as a possi-
ble delegate to the state meeting.
The members also voted to give
\$20.00 to a needy family.

The following program was pre-
sented: "Mental Illness Begins at
Home" by Mrs. Forrest Gruner, "Are
You Training Your Daughter to be
a Wife?" by Mrs. James Jennings,
and "How to Quarrel with Your
Husband" by Mrs. Ralph Ruthart.

Refreshments of angel food cake
and fruit punch were served to
Mesdames Wayland Angel, Forrest
Gruner, Frank Gruner, James Jen-
nings, Bailey McCormick, E. A.
Michael, E. A. Olson, Donald Olson,
Glenn Truax, Marshall Rockwell, Sr.,

Notes From The County H. D. Agent

Vigorous, healthy plants must have an abundance of green leaves. A person driving around over Canyon will notice many shrubs, trees, and perennial flowers with pale leaves, quite often yellow leaves, with just the main veins showing the green color. There are several reasons for the yellowing of leaves. In this vicinity, which has an excess of lime making the soil alkaline, the yellow leaves are usually caused by deficiency of iron. Although present in abundance, the iron in the soil is not available to most plants. In order to provide an acid condition of the soil, iron sulphate, sulphur, aluminum sulphate, and various types of organic matter have been used. Yellowing usually appears first in the young foliage near the tips of branches. Later, in the case of perennials, leaves on the older portions of the plant may become yellowed. Severe chlorosis eventually causes lack of vigor, reduction in yield of flower or fruit, and even death of the plant. Trees, shrubs, and herbaceous annuals or perennials may be affected.

Several methods have been used in treating iron chlorosis. One way of treating chlorotic ornamentals involves spraying of the foliage with a soluble iron salt. The yellowed leaves should be thoroughly sprayed during the evening with a solution containing one-fourth tea-spoonful of iron sulphate (copperas) in a gallon of water, to which one tea-spoonful of glue may be added as a sticking agent. When new yellow leaves appear, they should be sprayed also.

Copperas and sulphur may be applied to the soil by dusting it lightly in a shallow trench dug in the soil out even with the tips of the branches. Then the trench is covered with soil and watered. This treatment may be repeated as needed.

Plants with their roots in caliche will need frequent treatments. Building the soil up by adding organic matter in the form of well rotted manure or compost with some sulphur added is a good preventative.

On Saturday morning Mrs. Rae M. Walters returned from Denver, where she visited her parents Mr. and Mrs. E. M. Beasley, who came home with her.

Mr. and Mrs. Rex Lawley and family of Fresno, California, formerly of Canyon, visited with Mr. and Mrs. Clay Dawson over the weekend.

Mr. and Mrs. Johnnie Dyson of Houston spent last week with Mr. and Mrs. John L. Hammond and other relatives. Mrs. Hammond and Mrs. Dyson are cousins.

Mr. and Mrs. W. B. Welch and family of Dallas visited in the home of Mrs. W. S. Myers last Friday night.

Mr. and Mrs. J. D. Price, W. C. Myers, Alvah Doak, Mrs. R. E. Chambers, and Mrs. Bob Combee are in Dallas this week on business.

Dr. and Mrs. Walter H. Juniper and daughter are vacationing in Arizona. They will return home Friday.

Many visitors in Canyon during the course of the year are not reported to The News. This is not a very courteous way to treat your guests.

Please notify The Canyon News when you have guests in your home. They will appreciate having their names printed in the local newspaper; your neighbors will appreciate seeing this news; and certainly you are not ashamed of the fact that they visited you.

Please call 41 when you have guests, or when you are making a trip.

Mail Service on Railroads Costs Money

A glaring example of how government subsidies—with our tax money—one form of transportation even while it is penalizing another is found in the mail situation.

The railroads carry approximately 94 per cent of the volume in pieces of all intercity first class mail, and practically all of second and third class mail and parcel post. The airlines, by contrast, move about six per cent of the number of pieces of intercity first class mail.

Yet, in the last fiscal year, the railroads received a little more than \$27,000,000 for handling their 94 per cent—while the airlines were paid about \$55,500,000 for carrying the remaining six per cent. And some \$22,500,000 of the railroads' fee was for the use of specially built and equipped cars provided by the lines for sorting and distributing mail en route. The airlines are not called upon to provide any comparable service.

Large mail revenues are a major element in making operation of the airlines possible. On the railroad side, however, mail service entails a heavy loss. For the last period for which figures are available, it was costing the railroads \$1.54 for each \$1.00 of mail revenue received. One large railroad system alone is losing more than \$20,000,000 a year in transporting mail. So in effect, the railroads are actually subsidizing the government by bearing a large part of the true postal deficit which is now hidden in inadequate pay to the lines for the service they perform.

Is there any justice in a system under which the agency which does most of the work, and performs the really essential function, gets the worst treatment?

H. E. Shahan has returned from Waco where his arm was operated upon last week. His arm is getting along very nicely.

Glen Prater returned Monday night from Eldorado, Arkansas, after having visited a week with his sister and family, Mr. and Mrs. Louis Reid.

Mrs. R. N. Winship, Jr., and her son, David, of Houston arrived Sunday to spend several weeks with her sister, Mrs. O. H. Jackson.

Mr. and Mrs. Harland Brooks and Randy spent the week-end at Stinnett visiting Mr. and Mrs. Lavert Avert, Jr., and family.

Cleta and Anita Avert spent Friday and Saturday with Mr. and Mrs. John Robinson and family.

James Hines of Galveston visited in the parental J. T. Sykes home.

The world would be better off if those who think they are too good to stay on it would get off.

Congress Waits For Opinion of Folks at Home

One of the healthiest current signs is the growing concern of the people over excessive government spending, deficit-financing at a time when the national income is running at record levels, and the depressive effects of present-day taxes. But it is also apparent that a great many people are putting the blame entirely where it belongs.

It is all very well to criticize Congress and the Administration for their fiscal sins. However, the forces that make for wasteful government are right at home in the grass roots. Virtually every chamber of commerce, every civic organization, every industrial council, farm organization and labor organization constantly pounds the drums for more tax money for their special benefits. Economy is okay for the other fellow, but the more money the Treasury pours out in their direction the happier they are. There are honorable exceptions to this, but they are too few in number.

This is also true of a great many businessmen—who, of all people, should know better. They are the first to point to the need of economical government as a bulwark to the national security. Yet, time and time again, as members of the various civic groups, they are at the forefront of those who demand that endless amounts of Federal tax money flood into their regions, as pure political handouts.

The members of Congress are only human. They generally follow the wishes of the "folks back home" who pack the votes. We will have sound, stable and economical government when, and only when, the people demand it.

Rotary President Sets Aims of Club For Coming Year

President James Russell presided Tuesday at the first meeting of the new Rotary year. He talked about the findings of his trip to Rotary International which was held in Detroit.

A past president Rotary pin was given by the new president to Jack Haley, immediate past president of the club.

One meeting at Rotary International was described by President Russell as a talk by four young men from foreign nations who talked on their native lands and their thanks for Rotary Foundation which enabled them to come here for study. Each of the four represented a different country and studied a different subject in America. They expressed amazement at the opportunities of America. When they go back home they will make better citizens, and perhaps the seed of Democracy will be spread because of their stay in this country.

Presidents-elect held daily meetings to express and discuss the aims of their clubs for this year. The goal of all clubs seemed to be the care of youth of the various communities. What are we doing about the youth of Canyon?, asked the president.

According to school surveys, security seems to be the prevailing anxiety of youth today. Security in jobs in which youth may work and make a future living was pointed out as the great necessity.

In Canyon there are vast opportunities in offering jobs for youth to go to college. Giving youth the opportunity that they need should be the goal of every citizen of Canyon, especially Rotarians.

Cliff Milner, the new secretary, introduced his assistant, Miss Sue Hood, who will attend the weekly meetings.

Visitors were: J. D. Shinkle of Roswell; C. L. Bockemuhl of Los Angeles; G. T. Stubbs of Stillwater, Oklahoma; Rev. Karl H. Ernest of Dumas; Jerry R. Kirk of Muleshoe; Howard W. Amick, Archie Roberts, Thomas Richardson, Howard A. Cox, all of Panhandle; Dr. W. J. Wooten of Canyon; J. L. Bagwell, W. J. Flesher, Harry Beck, Geo. M. Waddill, Bill Dell, R. T. Alexander, J. O. McGuire, Roy Boger, Fred J. Carr, Guy A. Carlander, all of Amarillo.

Dean Acheson, Secretary of State, will not resign under fire now that U. S. has reversed its policy as it relates to the Far East. Mr. Acheson was quick to agree on the need for a showdown with Communism in Asia when the cards were all on the table, and when General MacArthur outlined the action needed.

Intelligence officials of U. S. had reported the troop concentrations that preceded the Communist invasion of South Korea. Appraisals of reports had suggested Communist offensives in Korea as well as elsewhere. Only surprise was timing and exact place of offensive with tendency to expect it directed at Formosa, not Korea.

One of the mysteries of life is why the Creator gave some people craniums.

When a writer or a speaker tries to stir up your emotions it is your turn to use common sense.

Former Russian Slave Laborer Tells of Horrors

CINCINNATI—If those who advocate communism for the United States could live in Russia for a few years and get to know the actual conditions they would quickly change their minds, Mrs. Katherine Reitenbach asserts.

Mrs. Reitenbach, who recently arrived in Cincinnati to make her home after five years as a slave laborer in Russian coal mines, says Americans would find it hard to believe the true conditions of that country.

She was born in the United States but moved to Germany with her parents when she was a child. In 1944, when she was living in Yugoslavia, she was taken by the Russians, along with many other German and Hungarian girls, to work in Russia.

In the first labor camp to which she was sent, there were 900 workers, most of whom had been informed they were to stay only a month or two, but the work period dragged into years.

Mrs. Reitenbach said the workers were paid, but they had to produce a set amount of coal to get their pay and then had to give most of it back for their food, which was poor and often consisted of a watery cabbage soup.

Sanitation was bad and many workers incurred scarlet and typhoid fevers.

Women and elderly men do most of the work in the Soviet Union, she said. Men of the Communist party are often assigned to one town for a little while and then moved on. For that reason there is little family life. Homes consist usually of just one room with only a chair, bed and stove.

She said she was informed that there would be world-wide communism, perhaps by 1952, and then be full realization of Communist objectives. Under that plan, everything would be free and workers would receive no pay, because there would be nothing to buy, she said.

Released last November, she went to Germany and then came to the United States to live with her brother.

Man Who Tried to Give Away \$1,000,000 Dies

LE MARS, Iowa. — Back in 1948, Herman Schultz offered to give away 42 farms valued at a million dollars because "you can't take it with you." Schultz died recently at the age of 77.

The farms were located in Iowa, South Dakota, Nebraska and Minnesota. He gave 15 to relatives and friends. But before he could give away the rest he was robbed of \$124,000 in May, 1948, and again in May, 1949.

This caused him to lose faith in human nature he said. He added, "Well you can't take it with you and I've found there is more pleasure in pursuit than in possession. I'd give the whole million dollars, though, if I could just take 30 years off my age. I really enjoy living and I've had lots of fun amassing this fortune."

Run-Away Mules Rout Uninvited Berry Pickers

MT. CARMEL, Md.—Ray Crawford was dusting an onion crop, a very unexciting job—that is until the dusting machine caught fire.

After that things began to happen so fast Ray couldn't keep up with them. Two mules were pulling the duster and their tails caught on fire. The animals reared and took off. Ray jumped clear.

George Jenkins, owner of the farm, went out to check up and found the duster smashed against a tree, one mule that would be out of action for several days with a scorched afterdeck, one mule only slightly damaged, and, three women in his strawberry patch.

The women were charged with stealing 15 quarts of berries. "Nothing unusual," said Mr. Jenkins. "We live on excitement around here."

Italian Coal Shoveler Finds Wallet; Wins Trip to U.S.

WASHINGTON—Giuseppe Bortoletto, 22, Italian coal shoveler from Padua, Italy, received a free trip to the United States all because he was honest.

Bortoletto was shoveling coal in Padua when he found a wallet. It contained \$35 in American money, quite a lot of money for an Italian laborer. He turned it in and went his way.

The wallet had belonged to Vearl Phillips, a Virginia coal miner, who lost it over a year ago while working in the Clinchfield Coal corporation mines.

Some Marshall plan officials heard about Bortoletto's honesty and thought he should be rewarded. Before he realized what was happening, Bortoletto was on his way to the United States.

In the United States he appeared on radio shows, saw a coal mine and was toasted by Italian officials.

More Inflation Seems Inevitable Says Retailer

A special bulletin issued by the National Retail Dry Goods Association carries this heading: "Looks like more inflation on the horizon." The article goes on to say that the flood of government spending may force prices higher. And then it makes this interesting observation: "If we should get a substantial degree of inflation with consequent increase in prices, the first disposition of the general public would be

to believe prices were rising because of the greed of retailers."

That was the case when prices shot up after the war. In some communities consumers actually picketed retail stores, with banners demanding that the rapacious shopkeeper immediately make big cuts in the prices of all manner of commodities. Here was a classic example of public confusion of cause and effect. The obvious fact is that no one has more to lose from inflation than the retailer; that no one has done more to hold price increases to the absolute minimum; that only a few cents out of each dollar spent in a store remains with it as profit for the owners, and that the causes of high prices are as far beyond the control of the retailer as they are beyond the control of the consumer.

Of these causes, government waste and extravagance are foremost. The Administration clearly holds to the idea that spending is good and saving bad. In spite of huge tax revenues and great business activity, we are running a heavy Federal deficit, which will be piled onto our monumental national debt. This is the sort of thing that bankrupts individuals. In the long run it bankrupts governments.

If we do have more inflation, don't blame manufacturers or producers or retailers or any other innocent bystander. Place the blame where it belongs—on suicidal governmental economic policies.

Tom C. Gooch, of the Dallas Times-Herald, wrote a stirring article about Texas several years ago and it is quoted in part:

Texas is not a melting pot for Americans, as some extremists might hope. Rather, Texas is a gathering place and a rallying ground for those Americans who believe in a free democracy that is really free. No commonwealth anywhere on the face of the earth has a higher respect for individual rights or is more determined that individual effort be protected in honest achievement.

The heroes who died in the sacred Alamo were not native Texans. They came from many of the older states to live in freedom or die for it. Under the leadership of Gen. Sam Houston, a native of Virginia, who came to us from Tennessee, the brave pioneers carried on to final victory at San Jacinto. The only cannon they had were the famous "Twin Sisters," a gift from the people of Ohio.

These early settlers, many of whom came to the colony established by Moses Austin, born in Connecticut, and his son, Stephen F. Austin, a native of Virginia—these early settlers began the building of a free commonwealth that has finally become one of the great, sovereign states of the nation.

A liberal translation of the Indian word Texas (Tejas) means friendliness. We hope our State is well named. At any rate, thousands upon thousands have been attracted within our borders and few have departed. Once a Texan, always a Texan.

Yes, we are proud to be Texans.

Not Conducive to Efficiency

whether we are of the third or fourth generation or the newest voter. We are still so young that any one who likes a fair fight, good living and comradeship can become a charter member of Texas, Inc.

We can be loud, too. Yes, we are loud. God has been good to us in material things and we are not keeping it a secret. Tap the ground and you will get oil, or lignite, or coal, or iron, or potash, or sulphur, or salt—yes, even epsom salts. Look to our forests and you will find any wood that is needed in our modern civilization. Stroll through our orchards and pick the finest peaches or the most delicious oranges and grapefruit.

In extent of territory, Texas is larger than any nation in Western Europe. It is far richer in natural resources than any one of those countries. Can we be blamed for lack of modesty in describing the generosity of Mother Nature?

New Officers of Lions Club Starts the Year's Work

New officers were installed at the regular luncheon of the Canyon Lions Club Wednesday, July 5th. Lion Wendell Cain of White Deer presided at the installation service. Officers named for the coming year include J. B. Hickman, president; A. K. Goodman, secretary-treasurer; Emmitt Smith, vice-president; Bill Sternberg, second vice-president; Sidney Burgess, third vice-president; James E. Flynn, tall twister; and W. E. Miller as lion tamer. Serving as directors are Lions Albert Byars, Clay Cooper, Kelly McGhee, and E. M. Myers.

Visitors present were Mrs. Alta-vene Clark and Grady Wilson of Amarillo, Rev. Jim Comstock of Columbia, South America, J. D. Carter of Houston, John Morris of Claude, W. B. Harris of Groom, Joe Hutchinson of Littlefield, Walter Travis of Dumas, George Graham and H. V. Stanton of Hereford, Norman Trimble of Borger, Dr. J. W. Edgar and L. P. Sturgeon of Austin, and F. H. Taylor, Rex Reeves and Tony Brown of Canyon.

The Canyon Lions Club under the able leadership of "Boss Lion" Aubrey Crossland and other officers report various activities during the past twelve months. Included in the report to Lions International were these community services:

Furnished two children glasses. Helped defray expenses of two high school boys to Boys State Championship Tournament in Austin.

Distributed food and clothing to needy families at Christmas.

Sponsored Christmas program for veteran families at West Texas State.

Arranged special program in recognition of Scouting in Canyon. Donated \$2400 donation to Canyon Recreation program.

Spent \$325 for repair on Girl Scout building.

Presented Lions Minstrel and assisted with the Art Quarry Musical Review.

During the past year the membership increased fifty percent and the 64 Lions are looking forward to a successful year of Good Fellowship (The Lions Ideal) during 1950-1951.

Mrs. J. L. Hickman of Los Angeles is visiting her son and family, Mr. and Mrs. J. B. Hickman. In a few days Bud and his mother will go to St. Louis, where Mrs. Hickman will visit her sisters. Bud will go to Chicago to attend the Lions Convention and then to Detroit on business. On the return trip he will come through St. Louis for his mother. After a few days in Canyon, Mr. and Mrs. J. B. Hickman and family will take Mrs. Hickman to her home in Los Angeles.

The American Legion will sponsor a Bingo party in the Legion Hall on July 24. All ex-servicemen and their wives are invited.

Recent visitors in the J. A. Myers home were Mrs. Myers' brother and family, Mr. and Mrs. Glen Wilkins, Ronald Glen and Linda Kay of Los Angeles.

Mrs. J. A. Myers, Helen and Annette have returned from a visit with Mrs. Myers' parents near Portales, New Mexico.

Fairview Breezes

In our community we received nearly 6 inches of rain and have certainly enjoyed the cool weather the past week.

Arlen Wesley went to Littlefield Friday expecting to go on a vacation to Colorado this week.

We sure are glad to have Mr. and Mrs. Read James back in our community.

Jerry Shipman underwent surgery in Neblett Hospital Wednesday. Annabelle and Fayerene Schaefer were welcome visitors to church Sunday.

We were glad to have G. E. Wesley back to church Sunday.

Mrs. Harvey Rogers and Vivian Myers attended church Sunday.

Jack Jetter and Francis Rowe were Sunday dinner guests in the J. W. Wesley home and visited Jerry Shipman in Neblett hospital in the afternoon.

Mrs. Serepa Bryan entertained the Home Demonstration Club Friday afternoon. Mrs. Rayford Shipman is calling a meeting of the club Tuesday in the home of Mrs. Evans.

Mrs. Cowart of Chicago is visiting her daughter, Mrs. A. E. Wise.

Mr. and Mrs. E. W. Schaefer and granddaughter, Jannis Shipman were in Plainview Saturday.

We regret to report the death of Mrs. J. A. Grounds, an old timer from our community.

We enjoyed the singing last week and are having another big sing song this Wednesday.

CHANGING TIMES

A lot of the churches these days have provided nurseries where small children are parked while parents attend the services, and that is a lot better than the kindred arrangement—all to prevalent—whereby the kiddies go to Sunday school and church while parents are parked at home.

Mr. and Mrs. Joe Cox, Mr. and Mrs. G. R. Cox, Annie and Frank and Mr. and Mrs. Malcolm Cashwell attended a birthday supper in honor of Bowen Cox at Elwood Park in Amarillo on Sunday.

The Randall County Sing Song Band will meet Sunday, July 16, at Fairview for its annual all-day meeting. Chicken and ice tea will be served. The public is invited.

Visitors of Mrs. J. A. Edwards over the week-end were her son and his family, Mr. and Mrs. C. O. Edwards and son of Ralls.

Nancy Faye Root visited with Alice Brotherton in Gruver one day last week.

Mrs. Lavert Arent, Jr. and Mrs. Donnie Arent visited Thursday in the John Robinson home.

Skellytown Boy Winner of Plane Trip to Colorado

Lloyd Reynolds of Skellytown was winner of the big prize at the Palo Duro State Park Sunday when his numbered coin 5035 won for him two plane trips to Colorado.

It was necessary to draw twenty times before his registered number was drawn.

Attendance at the Palo State Park increased again the past week, numbering 4,789. This was the largest one week's attendance since the opening of the Treasure Hunt last year. So far this year 64,529 persons have entered the Park, compared with 40,168 on the same date last year; and 29,615 on the same date of 1948.

Sunday night those who attend the Sundown Playhouse will have a special treat in store for them, and especially the ladies. Dwight Kuppert of Van Neys, California, and of "People Are Funny" fame will be introduced. Mr. Kuppert is the bachelor on the "People Are Funny" wife hunt and will spend the week, July 16 through 23, as host in El Coronado Lodge in Palo Duro Canyon. Every eligible woman is invited to meet him. But remember, his object is matrimony!

This week-end the Sundown Players will again present "Ten Nights in a Bar Room." The next week-end, July 21, 22, 23, "Uncle Tom's Cabin" will be presented. On Friday night entries in the Miss Amarillo contest, girls from the Sundowners cast, and possibly others will parade for Mr. Kuppert as he sits on the Throne of Bachelorhood. The girls will be dressed in swim suits, play togs, western togs, perky cotton dresses, and evening dresses will use all their feminine charms to melt Mr. Kuppert's heart.

Mr. and Mrs. John Hunter received word Monday that their son Tommy would sail for Korea on July 12 on the U. S. S. George Clymer.

Beverly and Hoppy Mathis of Canadian spent last week with the John Robinson family.

Those visiting in the home of J. P. Hammons last Tuesday were Mr. and Mrs. Thurmon Richardson of Pantex, Mr. and Mrs. Owen Hammons of Elizabeth, Colorado, and Mr. and Mrs. John Vencene of Denver.

Mr. and Mrs. Tom Gooch have returned from a visit with Mr. and Mrs. Billy Joe Pegram at Wellington and other relatives of Vernon. Mrs. Pegram will be remembered as Frances Gooch.

Mr. and Mrs. Owen Hammons and Mr. and Mrs. John Vencene of Denver were visitors last week in the home of Mr. Hammons' father, Mr. J. P. Hammons.

Mr. and Mrs. Iverson Leake and family, Mr. and Mrs. Clarence Adcock and Nancy, Mr. and Mrs. Kenneth Tubbs and Eddie were callers in the L. E. Gum home Sunday.

Mr. and Mrs. T. M. Thurmon, Neil Joyce, Monya and Gary attended the funeral of Mr. Cleave Crosby last Friday evening at Olton. Mr. Crosby was Mrs. Thurmon's uncle.

Mr. and Mrs. Wilma Graham and children of Amarillo and Mrs. T. V. Donald of Canyon spent the Fourth of July with Mr. and Mrs. James Wood in Hereford.

Visitor in the parental Tom Lair home over the week-end was James Lair of Perryton where he is a supply foreman for Bell-Braden Construction Company.

Ralph Mardis, who has been in the city plant of West Texas Company for more than a year, has been transferred to the Plainview office as district clerk effective July 10th.

Mrs. W. I. Wester returned Friday from Springfield, Missouri, from a three-week visit with relatives and friends.

Mr. and Mrs. J. C. Jackson and Kathleen and Mr. and Mrs. J. L. Lantz and Norma, formerly of Canyon, have returned from a five-week vacation in Arkansas. Three weeks were spent fishing on Lake Norfolk.

Mr. and Mrs. Allan Farlow visited with Mr. and Mrs. George Vineyard and son in Big Spring over the week-end.

Miss Alice Payne will leave within a few days on a vacation to Long Beach, California.

Miss Lila Roberson of Friona visited Helen Taylor over the week-end.

WE IN THE U.S. HAVE CREATED THE GREATEST AND MOST WIDELY DISTRIBUTED WEALTH THAT THE WORLD HAS KNOWN, BECAUSE THRIFTY PEOPLE HAVE KEPT THIS COUNTRY A LAND WHERE MEN ARE FREE TO MAKE THEIR OWN OPPORTUNITIES.

Major Alton Donnell Writes of His
Experiences First Day in Germany

Major Alton Donnell, who is in service with the Foreign Service Department, has written to his parents, Mr. and Mrs. L. A. Donnell, from Germany where he recently was sent. His letter follows:

We arrived in Frankfurt on schedule. We had spent the day that I wrote, Sunday, on a tour of the Frankfurt area, including the Kronberg Castle a few kilometers away. This is a castle which was built about 1890 by a daughter or granddaughter of Queen Victoria of England of the Battenberg family. It is the place made famous by Col. Durrant and the WAC captain who stole the jewels from the cellar. It is a beautiful place and obviously many of the wealthy German families really lived regally. We had lunch there and took a tour around the grounds.

Probably more interesting was the drive through the countryside to the castle and other areas. The country looks extremely prosperous and has wonderful crops of all sorts—potatoes, hay, cereals, wheat, I guess, and lots of vegetable gardens, fruit trees, etc. The people also look prosperous. Then, there are small factories scattered out through the farming lands. Actually the prosperity is to some extent synthetic. The American people here say it is buoyed up by American expenditures through the ECA and the Occupation Forces. The country has enough potentialities to become self-supporting, but the industries are so rigidly controlled that it will never be self-supporting as long as the

controls are maintained. If the Germans could be allowed to produce at their full capacity, their production and export could take care of them with no trouble even just in the Western Sector now under the three Western Allies.

We stayed in Frankfurt until Tuesday night and caught the plane to Berlin. We landed at Tempelhof Airdrome, in the middle of the city, which was made famous by the American Airlift.

The city of Berlin is considerably more than just a city. It is of roughly circular area about 30 miles across. It includes the city, which was, at one time, more than 4,000,000 people, but also within the area are large expanses of undeveloped land like the Grunewald (Green Forest) and lakes like the Wansee and Havel within the city limits. The American and British Sectors look as prosperous as the area around Frankfurt. The shops are full of food, clothing and practically any other item that anyone would want or need. The people look well fed and healthy and fairly well clothed.

We have been remarkably well taken care of. We were placed in the front suite of what is now called the Wansee Club but was once the home of Funk, the president of the Reichsbank, I believe, on the shore of this beautiful lake, Wansee. We have a private car to get us back and forth to work and, although it is out in the country, it is only about twenty minutes by car to the offices in the city.

We were given a complete tour of

the city of Berlin on Sunday. Surprisingly enough, there is little of the tension here that you would expect from reading the papers at home. Americans come and go rather freely into the Russian Sector of the city although they cannot enter the Russian Zone of Germany proper. Sunday morning we drove over to the Treptower Park, which is a mass grave in the Russian Sector of the Russians who were killed in the battle of Berlin. The Russians have erected a beautiful monument there as a sort of propaganda memorial to their war dead. We went from there to the area around the Unter den Linden, the famous street between the Brandenburg Gate and the Crown Prince's palace, which is the center of what was then the political capital of Germany. At one end near the Brandenburg Gate is the Reichstag and off a block or two to one side is the famous Reichs Chancellery. This enormous and beautiful building once covered several blocks and is almost completely destroyed with only a small section in the center left. The rest is a pile of rubble which is being slowly picked up. I presume the entire building will be destroyed. We also made a tour of all of the interesting historic landmarks in that area such as the Dome Cathedral, which, I am sure, was a beautiful building. It is badly torn up now, but there is enough standing that it might be rebuilt. All the others, the City Hall, the Museum, the Tomb of the Unknown Soldier, etc., are badly damaged and I suppose the Russians will completely destroy them. The Russians have made very little headway in cleaning up or rebuilding the area. It is impossible to fully realize, regardless of the pictures you see or how much you read, the awfulness of the damage of the war. These once beautiful buildings are just hulls or shells or piles of rubbish now and would surely be much more difficult to attempt to rebuild than to destroy and start over.

After leaving this area we drove out to the French section of the city and later to the British section. They are very pretty, almost as pretty as the American Sector and the British have a fair concentration of the industry of the city. Naturally, the biggest part of that is in the Russian Sector. Berlin is so much prettier than any American city of three or four million people. It is scattered out, somewhat, I suppose, like Los Angeles, and has no sky-scrapers and no slum areas in the American or British Sectors although I understand there are slums in the Russian Sector. Even the factory areas are clean and neat with lots of trees and parks and throughout the residential areas there are so many trees and flowers and open spaces.

Bathing Suits Cause Crisis In Milwaukee

MILWAUKEE, Wis.—Like a good many other cities throughout the United States this spring, Milwaukee was greatly concerned over what constituted "proper, decent and adequate covering of the female body."

Unlike other cities, however, Milwaukee's concern made the newspapers and became, in some degree, national property.

It all started with the request of Chief John W. Polcyn from the city attorney for a ruling on what was proper bathing attire.

Two things brought on the unusual request. One, summer was just around the corner and that meant bathing suits of the French type would soon appear on Milwaukee beaches; and two, it was anticipated that competition among strip teasers might reach a point where . . .

Arbiter of Morals

Well, anyway, the assistant city attorney wrote the chief an opinion in which he suggested the "man on the street" be questioned as to what he thinks of brevity in female attire.

The assistant city attorney declared, "The test must be how far the community has gone in the acceptance of strip tease shows and French type bathing suits."

"Not wishing to set myself up as an arbiter of morals and having insufficient knowledge of what norm the community has reached, I should hesitate to give a definite opinion on how much clothing a woman's body should have," he wrote.

The assistant attorney went on to say that a model appearing before a class of art students may be in her birthday suit, but that is considered art.

As to strip tease shows, he said, the test is whether the show "is aimed at exciting the desires of a normal person to the point of depravity."

How Moral Is Milwaukee

The chief said police had received complaints about "the scarcity of clothing bordering on indecency worn by some female entertainers."

The assistant city attorney suggested that if shows appear to be indecent, police can issue cleanup orders backed by disorderly conduct warrants.

But the whole problem, he reported, still simmers down to the question: How moral is Milwaukee?

"In the absence of a statutory definition of the word 'obscene' we may assume that it must mean the present critical point in the compromise between candor and shame at which the community has arrived."

Other cities throughout the country have been discussing the same problem. A Milwaukee wit, however, made light of the entire problem with the verse:

Mother, may I go out to swim?
Yes, my darling daughter,
But check the police if you
have a whim
To wear what you hadn't

4,000 Year Old Skull Found in California

BERKELEY, Cal. — Scientists believe man existed in coastal California "more than 4,000 years ago."

Anthropologists base their conclusion on the geologic age of a gravel bed where a skull was found 27 years ago. The skull was embedded in gravel, 20 feet under the surface.

Geologists ruled out any possibility that the skull had washed down from higher levels. They said the specimen not only was full of gravel, but cemented securely in the same mixture.

The skull was believed to be that of a male aboriginal Indian about 38 years old. It is now on display in Stanford's geological museum.

Other remains of early man have been discovered, but circumstances surrounding the discoveries made positive age identification doubtful. Until this latest report, there was little evidence that man has existed more than five centuries in California.

Costa Rica's Most Sacred Image Returned to Shrine

SAN JOSE, Costa Rica—The 315-year-old image of the Virgin of Los Angeles, Costa Rica's most venerated Catholic image, is back at its shrine.

It turned up at the same spot where it disappeared, and where legend says it miraculously appeared in 1635 in the possession of an Indian girl.

The image, valued at \$150,000, was stolen by burglars who killed the church watchman. When the theft was discovered the nation went into mourning.

The small carved image sits on a base of gold encrusted with precious stones. After it appeared in 1635 it disappeared again but turned up in the same spot some time later. There a shrine was built, to which Costa Ricans have journeyed for three centuries.

New Method Shows Heart Ills Before Danger Point Nears

ST. LOUIS.—A new means of disclosing heart ailments before they reach the deadly stage is saving many lives, according to Sumner T. Pike, acting chairman of the atomic energy commission. Pike said the method was developed only recently in an atom-radiation study.

"A little piece of research that had no connection with atomic energy has produced what looks like the most highly important discovery in the history of heart disease," Pike said.

He explained that University of California scientists were studying the effect of radiation on the blood of rabbits when they noticed that certain molecules in the blood meant incipient hardening of the arteries.

Pike said the telltale molecules now can be separated from other constituents of the blood by whirling a blood sample around in a centrifuge.

"When the heart trouble is detected in its incipient stage, it can speedily be corrected by dieting," Pike added.

He said after the test was found to work with rabbits, it was tried on 104 "cardiac humans" and 103 responded to the diagnosis.

"This means a complete, definite diagnosis of the principal group of heart diseases with better than 98 per cent accuracy," Pike asserted.

Rookie Cop Creating Crimes for Fun of It

SAN DIEGO.—A rookie policeman who told authorities he "got a bang" out of hearing sirens was accused of creating crimes and finally shooting himself to add realism to a phony bandit scare.

Stanton G. Miller, 28, a marine corps war veteran, was quoted by Sheriff Bert Strand as admitting that while he wore a patrolman's uniform at suburban El Cajon:

He set a haystack afire and started two brush fires.

Made false robbery and burglary reports.

And last night shot himself in the calf of his left leg, and reported he was wounded by one of four men in a car he had stopped for a traffic violation.

Miller was jailed, charged with making false reports—a misdemeanor punishable by a maximum jail term of six months and \$500 fine.

Cripples Once 'Hopeless' Show Handicap Triumphs

WASHINGTON. — Some "hopeless" cripples showed why there's plenty of room for any handicapped person to have hope.

A man with one leg ran a creditable 60-yard dash.

A man with only two stumps for legs, and with no control over either stump, not only walked, but also climbed a stair.

A man who had put on the second of his two artificial legs recently walked jauntily across the room.

All this was part of a demonstration at the national Conference on workmen's compensation and rehabilitation.

It illustrated a change that has come over the thinking on the proper treatment for cripples. In the old days a man with no legs, for example, was taught a job in which he needed no legs.

Now the theory is to give him legs and teach him to stand.

Dr. Henry H. Kessler, West Orange, N. J., and Dr. Josephine J. Buchanan, Fishersville, Va., showed what hard work and patience on the part of both the patients and the doctors can do.

Charles Cook, 30, Keen Mountain, Va., hurt his back in a mine accident in 1943. Paralyzed from the hips down, he couldn't walk for five years.

Then the United Mine Workers welfare fund paid for an operation and for instruction at the Fishersville Woodrow Wilson Rehabilitation center.

"Charlie fell down in the hotel today," Dr. Buchanan said, "and everyone rushed to pick him up. 'Leave him alone,' I said, 'Charlie can get up by himself.'"

Charlie got up by himself.

Nabbed Bank Robber Has Long-Time Record

ST. LOUIS, MO.—A 62-year-old man captured by a woman bank teller has been involved in bank thefts amounting to more than a million dollars, the federal bureau of investigation reported.

William R. Evans was charged with larceny of a bank. Miss Audrey Lorenzen, a blond bank teller, captured him with the help of a passer-by. She chased Evans through downtown streets after more than \$1,500 was taken from her bank.

FBI agent Gerald B. Norris called Evans a notorious "stick man"—one who puts chewing gum or sticky paper on the end of a stick to help grab money in tellers' cages.

Norris said that Evans has a criminal record dating back to 1907, including involvement in a \$590,000 bond theft from the Bank of Manhattan in 1936.

Evans denied the St. Louis theft. He suffered a heart attack following the chase.

Assets of 4,982 national banks are put at \$88,000,000,000.

High Prices in Russia Brings Up Living Costs

A while back the Russians made a great to-do of the fact that, by government decree, retail prices on a long list of items had been sliced as much as 50 per cent. This was made the subject of a Chattanooga News Free Press cartoon which is both amusing and instructive. The cartoon points out that the average Russian worker is paid the equivalent of \$34.61 per week. It then shows what, after the wonderful price cuts, he must pay for various commodities.

Pork costs him \$4.00 a pound and rice \$1.67. A pound loaf of bread comes to 68 cents, and butter is \$5.00. A man's suit can be taken off the shelves for a mere \$280.00, while a woman's dress is given away at \$110. A table model radio can be had for \$272, and a midsize motor car for \$2,000. All the worker has to do is to save enough each week out of his \$34.61 to buy what he wants!

Here are the fruits of total government ownership and control of production and distribution. Retailing in Russia, for example, is non-competitive as we understand the word. The state runs the stores—aside from a few luxury emporiums which can be patronized only by the ruling class—and determines what will be stocked and what will be charged. The customer can like it or lump it.

Contrast this with the stores which are found on every Main Street in America—the chains, the independents, the specialty shops, the super-markets and so on. The results of a free, competitive market are evident on every side—better goods, attractive service, and the lowest possible prices.

RECREATION AREAS

The U. S. Forest Service announces that 4,500 picnic and camp areas in national forests are open for the vacation season. The service pointed out that the American people "own 180,000,000 acres of national forests with unlimited opportunities for recreation." Most of the reservations, the service added, are free to those who seek to enjoy them.

**Woman Turns
Down Art Career
For Plain Life**

NEW YORK — A short, broad hipped woman with closely cropped graying hair, her hands rough and red from her job as a charwoman, recently had a one man show in a Manhattan art gallery of her oil paintings.

She also had a chance at fame as a primitive painter, but the woman, Julia Asmus, 62, who earns \$18 a week scrubbing apartments, turned it down.

She rejected a subsidy from an art patron which would have permitted her to quit charring and paint full time.

Started Painting in 1923

"If I was 20 and could put on nice earrings and pretty myself up, maybe," she said. "But I'm too old and ugly. I wouldn't stand that. I like a just plain home life."

And as her show opened, the woman who widely known artists called "one of the few genuine primitives since the great Henri Rousseau," continued to scrub floors.

Miss Asmus started painting in 1923. Until 1928 she was an attendant in a number of mental institutions. Then she wanted a place to go home to after a hard day's work and began doing housework by the hour.

"When I can't sleep," she said, "instead of reading a book like most people, I get up and paint."

She first came to the attention of the art world when an artist saw one of her paintings in the home of friends for whom she charred.

Doubts Their Worth

While other people rave over her paintings, she remained skeptical that her art was worth money, but did tell the gallery director that she couldn't afford to sell the smallest ones for less than \$5 or the next larger size for less than \$10.

The director, however, priced the paintings at \$40 to \$400 and hoped to sell at least five or six.

Her largest canvas is a 34 by 52 inch painting which Miss Asmus titled "Walking in the Light of Man". It depicts God as a man with curly gray hair and beard, wearing a dark monklike robe.

Other paintings show landscapes with figures such as a child might draw. They are flat looking still lifes and portraits from her imagination. Artists have praised their color and texture.

Asked what she would do if her painting made her rich and famous, she couldn't think of anything she wanted for a few minutes.

She said finally, "Well, I would like to get over to London to see the queen."

**Accepting Gifts Proper
For Japanese Officials**

TOKYO — It recently came to light that Japanese government officials have been accepting gifts, in some instances, totaling several million yen.

In the United States if an official accepts a gift it is looked upon as a bribe and is punishable with a prison sentence or fine, or both. Not so in Japan.

In any other period of history the investigation being carried on in Japan would not have caused a ripple of excitement. The Japanese have always considered it proper to show "courtesy" to officials of all ranks in the form of expensive entertainment, presents and gifts of money.

These presents, depending on circumstances, may or may not have been motivated by hope of securing profitable government contracts or influencing legislation.

The custom was widespread, extending even to low-rank officials, and generally was considered proper. Officials accepted these courtesies as their right and the gifts helped supplement the low salaries which all Japanese officials receive.

Another custom was the Japanese officials have been provided with a cash reserve which they could spend as they wished, for entertaining other officials, or for expenses while traveling on government business. An accounting was not required.

All these customs are made public with the announcement of an investigation into spending by Japanese officials. And it has brought the bizarre complaint from some Japanese leaders that the "democratic ideals" of the west are irreconcilable with the traditions of the land of the rising sun.

**Dallas Newsboy Credited

DALLAS, Tex.—Tom Bradley, 16-year-old newspaper carrier, is credited with saving 20 lives.

While making his morning paper route he heard the noise of leaking gas in an apartment house. He notified firemen who roused 20 sleeping tenants. All were evacuated.

A fire captain said the gas was strong enough in eight of the building's 12 apartments to explode at the turn of a light switch.

**Long Awaited
Whooping Crane
Born, Killed**

AUSTWELL, Tex.—Bird lovers throughout the world were thrilled with the announcement that the first whooping crane ever born in captivity had hatched near Austwell.

The joy, however, was short lived, because the baby crane, named Rusty, disappeared within a few days and is believed to have been killed.

Bird lovers had been hoping for a long-legged hopper for years, because whoopers are all but extinct. There are only 37 of the cranes, tallest birds native to North America, throughout the world. A special refuge was established near Austwell in the hope they would multiply.

Some time ago, a pair of love-smitten whooping cranes named Josephine and Crip raised hopes that soon there would be 38 in their family. Josephine built a nest and laid an egg.

The news went around the world. Josephine and Crip started taking turns sitting on the nest. It wasn't long before she tossed Crip out, however, and monopolized operation incubation.

Thirty-two days later the first whooping crane to be born in captivity was hatched. In a couple of days he could be seen running around in the 150-acre enclosure with his parents whooping along after him.

But one morning a few days later there was no Rusty, as he had been named. It is believed he was killed.

**Discovery of Old Coins
Revives Pirates Stories**

ASBURY, N. J.—The discovery of 35 gold and silver coins of Spanish, French and English issue dating from 1702 to 1794 at Asbury Park has revived legends of pirate treasure supposed to have been buried along that section of the Atlantic coast.

They were discovered in an excavation being made about 300 feet from the ocean shore. The municipal superintendent of maintenance said the money was in what evidently had been an old leather pouch which was badly decayed.

The coins evidently had been brought to the surface by a power shovel being used in the excavation.

**Wonder Working Hormone
Relieves Asthma Victims**

CHICAGO — Dr. Theron G. Randolph and John P. Rollins, of Northwestern university, have announced that the most stubborn cases of asthma are yielding to ACTH, the wonder-working hormone.

The doctors reported the wheezing patients, so severely afflicted they are unable to walk, to talk in complete sentences, or to walk up a flight of stairs, are finding complete or partial relief.

The doctors report ACTH will be used in the tough, advanced cases—those for which the cause remains hidden. The scientists told of treating 10 asthmatics and three hay feverites falling into that category.

One, a 54-year-old man, had asthma so severely he once fasted for 21 days to get relief. He had undergone surgery, X-ray, radium and other forms of treatment with no success.

Twenty-four hours after starting on ACTH he had complete relief. After being taken off ACTH he had recurrences, but each succeeding treatment was successful.

Protection after using ACTH is not permanent. It must be repeated at intervals of a few weeks.

**Marine Private Battled
Nazis When Only Fourteen**

CAMP LEJEUNE, N. C.—When Marine Pfc. Lawrence R. Lamberti of New York tells of fighting Nazis and Fascists at the ripe old age of 14, many of his buddies are a little skeptical but his is no idle boast.

Born and raised in Italy, Private Lamberti participated in many partisan sabotage activities including bridge blowing, sniping and small scale warfare, when the Germans occupied that country.

Even though he was a native Italian and didn't enter the U. S. until 1946, Lamberti is a fully naturalized citizen under United States law because his father came to this country in 1939 and became an American citizen before his son had reached his 18th birthday.

BOSTON, Mass. — The admiral is a big shot in the navy, but in the army he's just a private. In the Ancient and Honorary Artillery Company of Massachusetts, at any rate.

In the annual parade recently of the company that was founded in 1638 to fight off Indians in Massachusetts, now 312 years old, there marched the admiral, carrying a rifle. He was Adm. Louis E. Denfeld, retired, former chief of naval operations.

He joined the outfit recently as a private.

New School Law in Texas Passes Its First Year

Texas' new school laws, in force one year, have had the desired effect of providing better education and of bringing more children into the classroom.

Average enrollment skyrocketed more than 100,000, L. P. Sturgeon, state associate commissioner of education, said today.

"A renewed interest among educators in getting children into the schools, plus more attractive programs offered the pupils have had the desired effect," Sturgeon said.

"The spotlight of publicity thrown upon the schools while new education laws were being studied by the public and enacted by the last legislature has caused Texans to take more interest in their schools than ever before.

"An illustration of this is the fact that in some districts members of civic clubs have designated themselves as attendance officers. They have been extremely helpful to the school administrators in urging attendance so that Texas children can have a better education."

Every district in the state has waged intensive campaigns to get children in school and keep them there, Sturgeon said.

Schools have expanded or instituted classes in shop work to interest older children.

Classes for handicapped children have increased 50 per cent. They, like many other special school services, were made possible by allocation of state funds under Gilmer-Aiken school laws.

Visual aid facilities have been augmented, Sturgeon said, increasing the interest of children in school work.

School terms of six weeks to two months during the summer are popular in many sections of the state, according to Sturgeon. These make it possible for students to complete their annual scholastic work and yet allow schools to be dismissed during cotton picking time.

Sturgeon also reported that inroads are being made on the problem of regular attendance of Latin-American and Negro pupils. Itinerant workers are prone to leave their children in school only two or three months of the year, at most, Sturgeon pointed out.

Some districts which have heavy Latin American and Negro populations reported gains in attendance of 15 per cent and more during the last school year as compared with less than 5 per cent state-wide gain.

But even with the increase in attendance, there are still approximately 150,000 children of school age in Texas who are not enrolled, Sturgeon said. These are children whose parents are starting them in school a year late or older children who do not enter high school.

One of the most serious problems confronting school districts is lack of classroom facilities, according to Charles H. Tennyson, executive secretary of the Texas State Teachers Association.

Surveys by that organization and state school officials show that 50 per cent of the school districts this year increased their classroom facilities. Many others will add classrooms during 1950 and '51, Tennyson said.

"These necessary additional facilities will be made available due to increased revenue obtained by the schools through the new and equitable laws which produce more funds, from both state and local taxes," Tennyson said.

Ben Guill Reports on Agricultural Bill In Congress

The bill H. R. 8969 reported today by the House Committee on Agriculture pertains mostly to cotton. However, there are two sections of it relating to wheat and these, of course, are of interest to the wheat growers in the Panhandle area.

The first provision, which is Section VI of the bill, relates to wheat acreage allotments and provides that the 1951 wheat acreage allotments for any county shall not be reduced below the 1950 allotments for the county by more than the percentage by which the national acreage allotment for 1951 is reduced, plus five percent. Whatever extra acreage may be necessary to provide this minimum county allotment is to be in addition to the national acreage allotment. It is expected that this provision will apply principally in the newer wheat growing sections in the Great Plains area, and that probably not more than fifty counties in all will be affected. It takes the place of what is known as the Summer Fallow Amendment which was contained in Public Law 272 of the 81st Congress, which was passed last year.

Section VII of the bill restores the penalty of fifty percent of the support price on all wheat marked above quotas when marketing quotas are in effect. This provision has been in the law for years but was inadvertently eliminated in the Agricultural Act of 1949. This merely restores the old provision.

This penalty will not be in effect for the years 1950 and 1951, because there have been no marketing quotas announced, however, in future years, if marketing quotas are fixed the penalty becomes the rule.

NO WHEAT QUOTAS

Secretary of Agriculture Charles F. Brannan has announced that farmers would be allowed to grow next year's wheat crop free of rigid marketing quotas because the Federal Crop Reporting Board has forecast this year's crop at one-fifth smaller than last year's. Mr. Brannan pointed out that present supplies, while large, were not big enough to warrant marketing controls. He estimated the wheat supply at 1,395,000,000 bushels, which is 18 per cent above the "normal" supply but 2 per cent below the marketing quota level.

EMPLOYMENT

Robert C. Goodwin, of the Bureau of Employment Security, reports that local offices of the Bureau had placed 1,286,000 workers on jobs in May, an increase of 727,000 over April and 138,000 more than in May of last year. Employment rose to 59,731,000 early in May. Farm jobs accounted for the biggest gain, but the non-agriculture field took 489,000 workers, 20 per cent more than in April.

THE AMERICAN WAY

Time to Shift the Spotlight

Liberty Cannot Exist in State of Communism

Liberty, in the Western sense of the term, cannot exist in a communist state—or in any state which subscribes to the other totalitarian doctrines.

We need not turn to anti-communists to support that statement. A book written some time ago by A. Y. Vyshinsky provides remarkable proof of it. Mr. Vyshinsky is the Soviet foreign minister, a top man in the Politburo, and a leading authority on Marxism as now practiced behind the iron curtain. In

defense of Soviet laws, he wrote this: "Having given the toilers freedom of speech, assemblies, street parades, press, and so on, the Soviet government explicitly excluded the nonlabor classes from enjoyment of this freedom—Having assured genuine freedom of press to the toilers, the Soviet government did not extend this freedom to the nonlaboring strata."

A page or two later, Mr. Vyshinsky expanded on his theme in these words: "In our state, naturally, there is and can be no place for freedom of speech, press, and so on for the foes of socialism—Freedom of speech, of the press, of assembly, of meetings, of street parades, and of demonstrations are the property of all the citizens in the USSR, fully guaranteed by the State upon the single condition that they be utilized in accord with the interest of the toilers and to the end of

strengthening the socialistic social order."

That is worth reading again, word for word. What he said, if it means anything at all, is that the people can be perfectly free so long as that freedom consists in following the line laid down by their masters. They can speak freely—so long as they do not criticize Soviet policy. They can have a free press—so long as it shouts the praises of Stalin and sternly demands the death or deportation of dissidents. They can assemble freely—so long as the prime purpose of the assembly is to sing the praises of the "workers' fatherland." This is very much as if one of our political parties took over the government and passed a law which said that everybody could speak freely and enjoy the other freedoms with the exception of the members of other political parties!

Finally, it is enormously important to remember that socialism, no less than communism produces the same kind of "freedom" of which Mr. Vyshinsky spoke. It may not do that in theory, but it always does in practice. For when we concentrate all power in government, no matter what name that government goes by, tyranny follows as surely as night follows day.

White House aides explain that the decision to stand against Communist expansion in the Far East does these things: (1) eliminates Formosa as a U. S. political issue; (2) gets Secretary Acheson off the hook on the Communist issue; (3) enables Republicans to get back to a nonpartisan foreign policy; (4) recognizes that Communists do control China's mainland; (5) gives Russia a chance to show her hand; (6) assures MacArthur a dominant voice on a Japanese treaty.

Joseph Stalin, Russia's dictator, made his mistake by taking U. S. officials literally when they gave the impression a year ago that Southern Korea could not be held and later that the island of Formosa wasn't worth a U. S. effort to hold it. It looked like a good chance to pick up some more real estate cheap, until American public opinion entered.

Gen. Omar Bradley, Chairman, and other members of the U. S. Joint Chiefs of Staff in the period ahead will exercise a dominant voice in shaping direction of this country's foreign policy. Until now, President Truman, in reaching decisions, has sided with the State Department rather than the military on most issues. Events in Korea tipped the balance.

Omar N. Bradley, General, U. S. Army: "We can disrupt and break up the Soviet design. We can create order out of chaos."

for

COUNTY TREASURER

July 22, 1950

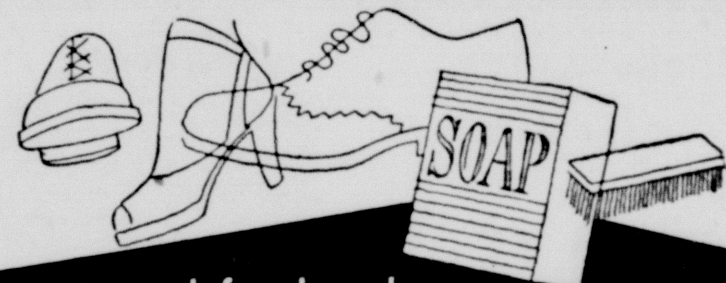

Your vote and support will
be appreciated.

In my campaign I have tried to see all the voters of Randall County, but if I have failed to see any of you, please consider this announcement as a personal solicitation for your support and vote in the election of July 22.

I am a widow and still have my three children to provide for.

I know the education and experience I have had in public and office work qualifies me to handle the duties of the office of County Treasurer. If I am elected I will do my best to serve you to the best of my ability in a courteous and efficient manner.

J. L. BAGWELL

Candidate for
District Attorney
47th Judicial District

TO THE VOTERS OF RANDALL COUNTY:

It is impossible for me to see every voter of the 47th Judicial District, and personally solicit your vote, I am herein calling your attention to my candidacy for the office of District Attorney of this District.

To those of you who are not acquainted with me, I shall state to you that I am a member of one of the oldest families in the Panhandle; that I was reared in Armstrong County, where I was at one time County Judge, and after I went out of office, I moved to Canyon, where I remained for a short time, and then moved Amarillo, where I have lived for more than 20 years, and where I have actively engaged in the practice of civil and criminal law, and for about 3 years of that time I was Assistant District Attorney. I am well acquainted with the duties of that office, and if elected will go into that office with some degree of experience that is vitally necessary to a proper discharge of its duties, and I will not be at the mercy of old experienced criminal lawyers, as the inexperienced must inevitably be.

The District Attorney's office is one of the most important of which you are required by your votes to fill; the Sheriff may apprehend and arrest offenders, but he cannot prosecute; the Grand Jury may indict him, but there its authority ends, and the Judge may direct the general affairs of the Court, but the law restrains him from prosecuting an offender, but the prosecution of the offender is by law vested in the District Attorney, and if you have an inefficient or an inexperienced prosecutor, you will have a poor administration of justice and the people will suffer accordingly. A raw recruit in the army if placed at the front without the necessary training might endanger the welfare of many, therefore, our Government carefully trains the personnel of the army before any are sent into action.

Shall we in this election demand

any less, or shall we carefully weigh the requirements of the office and the qualifications of those seeking it, and then vote accordingly?

I ask you to candidly compare my record and qualifications with the others in this race, and I believe that you will then cast your vote for me, for which I thank you.

Respectfully,
J. L. BAGWELL

W. R. Rutherford Paid Tribute to Altavene Clark

W. R. Rutherford, publisher of the Moore County News, Dumas, has this to say about the coming election:

It's time again to clarify the issues in the race for Congress. There is really only one. Do we, the people, want experience in office in a national crisis, or do we want to turn the job over to someone who is totally inexperienced in the work?

If you were picking an executive for an important job, would you choose one with 17 years of hard practical experience or one who has little or no experience?

Let's keep the record straight in the midst of a campaign in which personalities are being overplayed.

Walter Rogers, a Pampa attorney, has been a district attorney and his record was not sufficiently strong to win for him the next step up the ladder when he ran for District Judge in 1946. His voters in his own home district, defeated him. He is a lawyer, a former district attorney and without being able to win his home district's vote for District Judge, he now wants us all to pitch in and send him to Congress.

Blake Timmons has had only a brief period as a state representative or member of the lower house at Austin and the record he made there is not compatible in many ways, with the interests of the majority of the people in the broad area he now seeks to represent in Congress.

Many of his votes and actions in State Democratic conventions follow this same trend. Where is there basis for believing that he has the experience and is in line with the needs of this great district for representation in Congress?

Pete LaMaster of Perryton, is the son of an outstanding father and mother. They are good people and no man ever had a better family. But Pete has grown to manhood in Ochiltree County and we cannot find in his record, anything of public or civic service or any training that fits him to handle a critical job in Washington at a time when there is a national crisis. We do not doubt Pete's sincerity or honesty or personal integrity but we think when he asks for our top job without any background of public service that would fit him to hold it, he has over-reached himself.

Altavene Clark's experience is the issue in the race that partisan newspaper columnists and her political opponents are doing everything in their power, to make you and I forget. That's why there have been personal attacks and that's why there will be more and more last moment charges.

After 17 years of being No. 2 person in the office she now seeks, Altavene Clark asks for the top job. . . . Is or is not this the American way of life?

Her opponents say she has a federal job. Who gave it to her and what is the job? She is executive officer of the House of Representatives Agricultural Committee. This is not a federal appointive job. Her name with others, was submitted by the chairman of that committee. Every member of that committee, Democrat and Republican alike, voted for or against her. Remember they were the men and women who had known her capabilities for service, her personal reputation, all about her—and she got the job, not by anyone's appointment but by the endorsement of Congressmen who were hiring an important executive and wanted the best.

Myron Taylor, personal representative of the President at the Vatican during war and early postwar years, might become an administrative assistant to Mr. Truman in a position that would enable him to maintain his contacts with the Vatican in Rome. The President remains unwilling, up to date, to re-establish more formal contact with the Roman Church.

Senator Frank Graham, defeated for re-nomination in North Carolina, is to be offered an important position with the United Nations before he retires next January. The North Carolina Senator headed a mission that had much to do with creation of the new regime in the East Indies.

Word is out that Averell Harriman, back from Europe to become a special assistant to the President, soon will become known as the Harry Hopkins of the Truman Administration. Mr. Harriman will sit with the Cabinet and will be expected to handle a steadily expanding volume of problems for the President.

Gen. Douglas MacArthur, Eupreme Commander in Japan, called the turn in U. S. policy providing for a showdown with Communists in the Far East. General MacArthur insisted that there could be no new retreat before Communist pressure at any point in the Orient if U. S. expected to retain any standing.

NOTICE TO BIDDERS
The City Commission of the City of Amarillo, Texas, will receive sealed competitive bids on the following list of buildings located at the site of the former Amarillo Army Air Field. Bids must be submitted to the office of the City Secretary in the North Wing of the City Auditorium at 5th and Buchanan Streets not later than 3:00 o'clock, P. M., July 25, 1950.

Each bid submitted must be accompanied by a certified or cashier's check in an amount of not less than 10% of the bid, and made payable to the City of Amarillo as a guarantee that if an award is made, the Bidder will complete the transaction by completing the payment therefor and removing the building from the premises within the allotted time. Payment must be completed at the time the award is made.

Buildings may be inspected at the site approximately nine miles east of the City of Amarillo on Highway 60, between the hours of 10:00 o'clock A. M. and 3:00 o'clock P. M. on any week day beginning Wednesday, July 12, through Monday, July 24.

COUNTY ATTORNEY
Hayden Weaver

of Randall County
Earnestly solicits your vote and support for
District Attorney
47th Judicial District.

Dear Friends:

I deeply appreciate the privilege of serving as County Attorney of Randall County. This term as County Attorney has certainly meant a lot to me in many ways, and I hope, in return, that I have carried out the duties of the office in such a way as to merit the trust.

In this race for District Attorney I am trying to see as many citizens as possible. Because of the size of the district I won't have an opportunity to see everyone as I would like to do. If I don't have a chance to see you personally, please accept this as a solicitation for your vote and support.

Your kindness and consideration in the past is appreciated.

Sincerely yours,

HAYDEN WEAVER

COST-OF-LIVING

Led by rising meat prices, the cost of living between April 15 and May 15 took the highest jump of any month in almost two years, according to Bureau of Labor Statistics, but the index was still below that of a year ago. An increase of .8 of one per cent was reported by the Bureau in its Consumers' Price Index on retail prices of goods and services purchased by moderate income families in large cities. The index on May 15 was 168.8 compared to 100 for the base period considered normal, 1935 to 1939.

Strikes More Harmful Than Benefits Gained

A recent Gallup poll indicated that the majority of the people favor a law stronger than the Taft-Hartley Act—a sentiment which undoubtedly reflects growing public concern over strikes that weaken the country. Now another survey, conducted by the Psychological Corporation, under the direction of Dr. Henry C. Link, shows that a majority of the people also believe that the coal miners were definitely harmed by the last strike.

Personal interviews were conducted in 2500 homes scattered through 132 communities from coast to coast. One question asked was: "Do you think that John L. Lewis and the coal miners, in the long run, were more benefited or more harmed by the recent strike settlement?" Sixty-six per cent answered "more harmed", as against 22 per cent who felt the miners had benefited, with the balance uncertain. Even in union homes, 57 per cent said that the strike was more harmful, compared to 31 per cent who thought that the benefits outweighed the damages.

Another question asked was: "Do you think the coal mines should be taken over and run by the government?" This "solution" to coal's problem has been suggested by a few short-sighted people, and the socialists are always whooping it up. However, the opinion of those polled was overwhelming against it. Only 20 per cent said yes, while 69 per cent answered no, and 11 per cent were uncertain. The proportions were practically the same in both union and non-union families.

It is clear that the American people want a healthy, competitive, privately-owned coal industry. And labor's excesses are doing the cause of labor great damage.

INDUSTRIAL INJURIES

The Labor Department's Bureau of Labor Statistics has reported that industrial injuries to 80,000 workers cost them \$16,000,000 in pay during the first quarter of 1950. The number of injured was two per cent more than in the last quarter of 1949, but eleven per cent less than in the first three months of that year. Three hundred workers were killed and 4,300 permanently injured during the period. The total working time lost was estimated at 1,600,000 man hours.

Wesleyan Guild Entertained at Pastor's Home

On Friday evening the Canyon Wesleyan Service Guild was hostess to the Happy Wesleyan Service Guild in the home of H. L. Thurston. President Mrs. Alfred Hamblen greeted the guests at the door. Mrs. Loyd Devin, program chairman, introduced Mrs. K. E. Frieze, Spiritual Life Leader, who presented the devotional. Guest speaker, Mrs. Herschel Coffee, spoke on "Woman's Place in the Present Political Situation."

After the program members and guests gathered around the serving table, laid with a Chinese hand-embroidered linen cloth. On the table was a three-tier birthday cake in honor of the tenth birthday of the Canyon Wesleyan Service Guild. Each candle on the cake was lighted by an individual woman representing a phase of the program of the Guild.

Mrs. Felix Pierce presided at the serving table appointed with crystal. Refreshments of cake and pineapple punch were served to the following guests and members: Mesdames W. C. Teil, S. A. Allan Shivers Gets Views of Texas Citizens

Texas has a Governor who gets out and sees the people.

Gov. Allan Shivers has traveled approximately 14,465 miles in Texas during the last four months to be present at various community functions and to meet and talk with Texans.

"I know of no better way to find out what the people want and expect from their State Government than to talk with them—and especially to listen to them," Shivers says. "It is important for any man representing the people in government to know what they stand for."

During the four months Governor Shivers made some 60 public appearances in Texas towns other than Austin. Most of his traveling—none of which was at State expense—was done by plane. This made it possible for him so to arrange his schedule that of the 104 days during the four-month period that he was in Texas, he spent at least part of 90 days at his office in Austin.

The figure of 14,465 miles does not include personal trips the Governor made to his homes in Mission or Woodville or travel inside Texas when he was on his way out of the State. The Governor made three out-of-state trips during the four-months, one on a vacation trip, one to attend a funeral and one to the

National Governor's Conference in West Virginia.

Shivers, who succeeded to the Governorship a year ago, is a candidate in the July 22 Democratic primary for a term of his own as Governor. In his travels over the State he has not made political speeches but instead has confined himself to discussions of various public problems and to giving the people reports on the State Government.

STAR SIGHTING

It has been reported that the 200-inch Hale telescope, of the Palomar observatories, in California, has discovered an exploding star farther away than any yet reported. It took 50,000,000 years for its light to reach the earth. Had the super-nova been as close as Vega, a bright star visible to the naked eye, it would have been as bright as the moon, the astronomers assert.

FOREIGN TRADE

In the first third of 1950, exports from this country totaled \$2,195,100,000, equivalent to an annual rate of 9,585,300,000 compared with a \$12,000,000,000 actual total for 1949 and official expectations of \$10,000,000,000 to \$15,000,000,000 this year. Imports for the same four months, however, totaled \$2,470,000,000 against \$2,323,700,000 for the corresponding period of 1949.

Three Ghosts at Work Says Past President

Early in May, Herbert Hoover, the only living ex-President, made a noteworthy speech to a group of 1800 editors and publishers. The world, he said, had drunk too deeply of the mixed drinks of three ghosts: "The shade of Karl Marx with his socialism, the shade of Mussolini with his dictated economy, the spook of Lord John Maynard Keynes with his . . . perpetual

endowment for bureaucrats. And we have contributed an American ideology to give-away programs. It might be called the New Generosity. It is not yet a ghost."

Mr. Hoover did not turn thumbs down on all governmental welfare activities. Indeed he said, "Security from the cradle to about 18 to 20 years of age, and from about 65 to the grave, has always been sacred to the American people. But, he went on, the group which is in between these extremes "can find its own security only in a free but tough system of risk and self-reliance. It can be destroyed by taxes and the four mixed drinks."

Then Mr. Hoover turned his attention to our two major political parties. He observed that in European nations there are multitudes of parties which create confusion and despair. If we are to avoid that, he said, our two parties must really become opposites. We should have, on the one hand, a staunchly conservative Republican Party, opposed, on the other, by a Democratic Party which tends to the left. Only under such a condition, he believes, would it be possible for the voters to make a clear-cut choice, and for the respective parties to really stand for something definite and unequivocal.

It is certainly evident that neither of the parties even faintly resembles a cohesive whole today. The Democrats are now the majority party, and the President, their leader, has a program of unprecedented scope for enlarging the functions of the government, for putting the government into business, for continued Federal spending on a huge scale, and for all-inclusive social security. At the same time, the Democrats have in the Senate the foremost advocate of government economy, Senator Byrd, and their majority is made possible by a Southern delegation which still holds to traditional states' rights doctrines, and which is almost 100 per cent opposed to the President on such great issues as the Administration's civil rights bill.

The situation is similarly confused within the Republican party. Its most effective leader is Senator Taft, a conservative who believes that ever-growing government is the greatest menace to the freedom of the people. Yet it also has a group of aggressive "liberal" Senators, such as Aiken and Morse and Smith, who are continually retreating under the present leadership, and who go along with much of the Truman program.

It can be effectively argued that a great political party is big enough to contain men of widely varied views. However, at the present time, the voter doesn't have much choice. In the last Presidential election, for instance, Governors Dewey and Warren campaigned on a program which, in essence, was not basically different from Mr. Truman's. They offered the voters about the same things that Mr. Truman offered them, but said the Republicans could do it better. This attitude, as the results proved, was not convincing.

Mr. Hoover's idea is simply that the parties stand definitely for specific, opposed policies. Time will tell whether that goal is possible of achievement.

PONTIAC

Stevenson Pontiac 1618 Fourth Ave. Canyon, Texas

Twice as convenient for you and your budget!

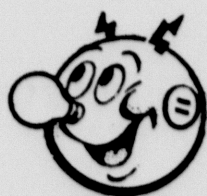

Your electric refrigerator, for example.

The efficient job it does retaining the nutritional value of all foods. Keeping intact the wonderful taste appeal of meats, fruits, vegetables . . . providing facilities for your family's favorite desserts or frozen salads.

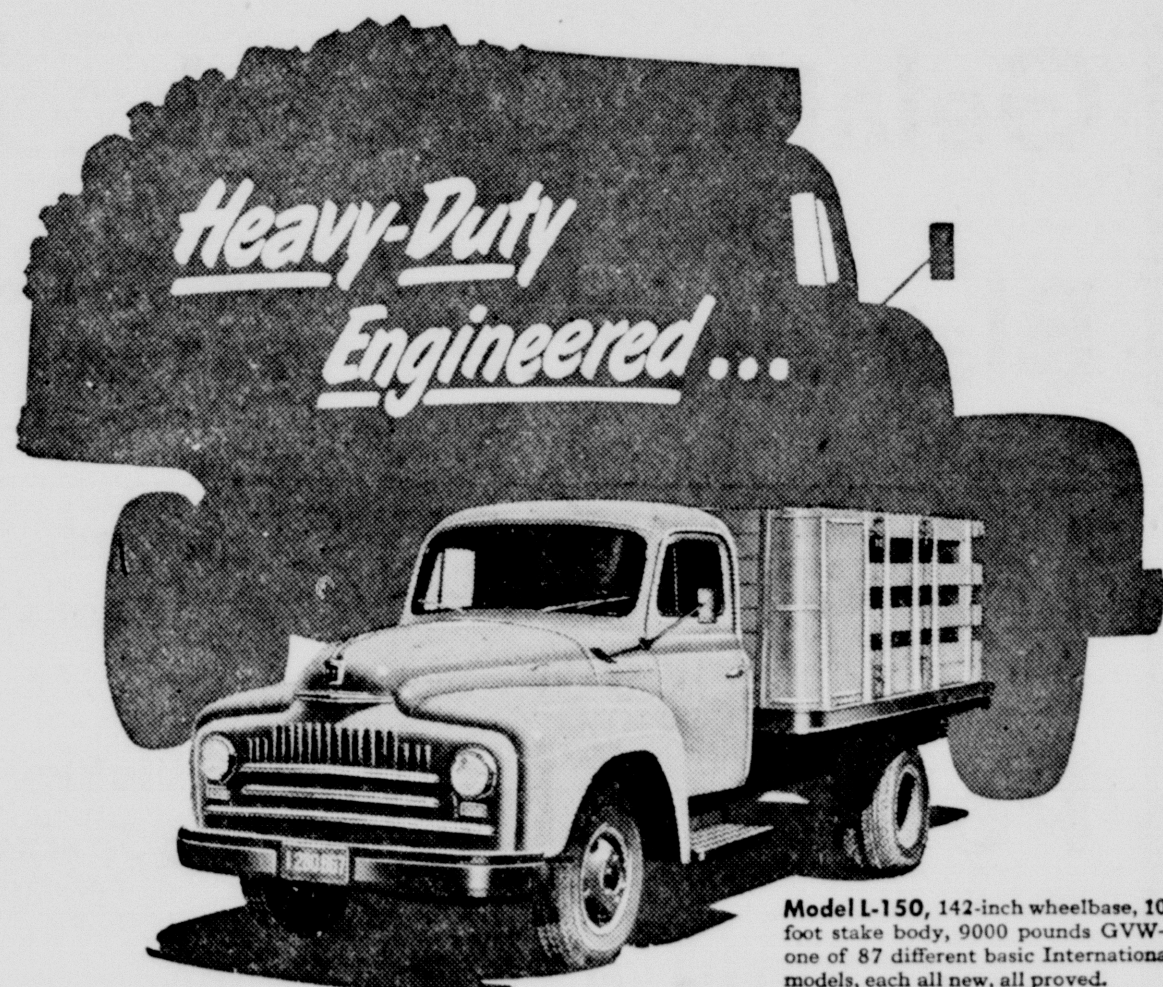

Add to this the convenience of your electric home freezer. A year 'round storehouse for such seasonal delights as strawberries, corn-on-the-cob, fish and other game. Fact is, you can buy in quantity . . . at low summer-market prices!

Yes, this practical combination affords twice as much convenience . . . when they're BOTH electric.

Electricity makes your food dollars go far—very far indeed. Low cost, dependable electric service makes it so.
